**PanBlast**
*Top Quality Equipment Accessories & Parts For The Blast Cleaning Industry*

## Product Features

PanBlast™ Fina Abrasive Metering Valve reduces costs associated with excess abrasive usage and can be dismantled quickly for easy clearing or maintenance. The BSP version is intended for connection with most non-US equipment and is available in multiple sizes and configurations.

▸ Low profile.
▸ Hardened steel plunger.
▸ Urethane sleeve.
▸ Urethane plunger seal for smooth operation.
▸ Compatible with all abrasives.
▸ Easily disassembled for servicing and maintenance.
▸ Various BSP sizes and combinations available.
▸ Complete range of replacement parts available.

## Common Applications

▸ Touch-up blasting operations.

▸ Blasting applications with multiple media types.

▸ Blast room, yard, or on site operations.
